GUEST SPEAKER AT MARCH ESIA BOARD MEETING

Ben Avey, The Director of Public Affairs, for WellSpace Health will be speaking at our next ESIA board meeting on Monday, March 9. WellSpace refers methamphetamine addicts to detox centers. Councilmember Jeff Harris recommended we MEET with him and discuss his findings on the methamphetamine addiction and what it poses in dealing with the homeless population. He will be discussing the effectiveness of the detox procedure with the homeless. The ESIA Board is interested in understanding more about homeless issues as we evaluate homeless shelter proposals such as the Motel 6. The presentation will be part of our regular Board meeting and ESIA members are welcome to attend for this portion of the meeting at 5:30 pm at the Clunie Center.

ESIA COMMENTS ON CITY OF SACRAMENTO STREAMLING PROPOSALS

The ESIA Board of Directors sent a letter to the Planning and Design Commission (PDC) supporting the City's proposed streamlining of development projects. These proposals seek to reduce processing time for many development proposals by having them heard by the Planning Director instead of the PDC. ESIA will still have the opportunity to comment and we feel the proposals maintain transparency to the neighborhood. The proposal includes enhanced community notification by posting of the properties when a development proposal is pending. The proposal will also set up a Design Advisory Committee to help the City review design early in the planning process, resulting in higher quality projects. These East Sac proposals were heard by the PDC on February 13, and will go before the City Council. For more information, [click here](#).

SHARED RIDEABLES (E-BIKE AND E-SCOOTER) ENFORCEMENT

Effective November 19, 2019, the City of Sacramento Police and Public Works Departments will begin enforcement of all traffic and parking laws for users of shared rideables such as e-bikes and e-scooters. Sacramento PD could cite users for traffic or vehicle code violations, and Public Works Parking Enforcement Officers will begin reporting parking violations to device operators, who may choose to pass those costs on to the individuals who improperly parked the devices. Violations such as scooting on the sidewalk may result in citations of up to \$207. Companies, who are required to provide user education about rules and regulations, may receive a citation of \$27.50 for an incorrectly parked device. A complete list of all shared rideable regulations as well as information about where to park can be found on the [City of Sacramento Shared Bikes and Scooters Webpage](#).
