Mayor and Members of the City Council

The East Sacramento Community Association (ESCA) supports this sidewalk ordinance. Pedestrian safety for all, including the disabled, the elderly, children, and all residents, is as important as vehicular safety. There are so many areas where people must walk in the streets and it's simply unsafe. We support the City efforts to find suitable housing for the unhoused, and we do not feel this is criminalization of the homeless, any more than prohibiting the blockage of streets.

Sincerely,

Board of Directors
East Sacramento Community Association (ESCA)
(Formerly East Sacramento Improvement Association (ESIA))
