

February 27, 2024

Mayor Steinberg and Members, City of Sacramento City Council

Sent Via Email

Dear Mayor Steinberg and Members of the City Council:

The East Sacramento Community Association urges the City Council to adopt the 2040 General Plan and Climate Action & Adaptation Plan on February 27, 2024. ESCA supports the key land use concepts that promote transit-oriented development, infill focused on commercial corridors, and a greater variety of housing types in neighborhoods. We support other key concepts in the General Plan that promote sustainability, equity, urban tree canopy, and mobility that focuses on pedestrian and bicycle use. These plans are a great step forward for the City and set a strong direction for the City into the future.

Thank you to the City Council, Planning and Design Commission and city staff on all the work over the last several years. Our neighborhood association has had multiple avenues to participate and comment and we appreciate all the outreach conducted by City Staff.

We look forward to a continued collaboration on issues that affect East Sacramento. Please feel free to contact Tricia Stevens, ESCA President, at [president@east sacramento.org](mailto:president@east sacramento.org) if you have questions.

Best regards,

*Tricia Stevens*

Tricia Stevens, President  
East Sacramento Community Association (ESCA)
